Hush Little _____ time for bed
Your story books have all been read
The sun has set down in the west
And now you take your turn to rest

And if your rest won't come right away
I'll sing you a song of the Milky Way
So climb aboard our rocket ship
And come with me on a magical trip

Hush Little _____ don't say a word
In dreams you'll fly as high as a bird
And if your dream ship will not fly
I'll give you wings to touch the sky

We'll fly so far to Mercury and Mars
And find our way home by the light of the stars
And if those stars won't lead us home
Through the Milky Way we'll roam

Hush Little _____ back in your room
Safely home from your trip to the Moon
Here in your bed you take your place
And share your stories from outer space

So Little _____, down from the skies
Now it's time to close your eyes
and dream about our magical flight
through the milky way tonight
